**WENATCHEE VALLEY RAPPLERS:**

Completed fire suppression tasks with a helitack and rapple crew. Loaded helicopter personnel and cargo, assessing methods, weight distribution, necessity for securing, and total weight, while completing manifest of personnel and equipment transported to fire hazards or other sites. Monitored inventory and inspected helicopter accessories, fire tools, and equipment, ensuring required tools and equipment available for firefighting activities. Constructed helispots and extinguished small fires, hot spots, and spot fires by exiting helicopter in remote areas. Certified in using long-line external loads and operating and maintaining accessory equipment.

Serve as a certified rappeler with comprehensive knowledge of all processes in rappel sequence. Thoroughly inspected and safety checked all life supporting equipment. Maintained proficiency with rappel sequence and all safety and emergency procedures. Gathered information on weather data, topography, fuel types, and fire behavior in responding to wildland fire incidents. Recommended best approaches and practices for protecting deployed personnel and equipment.

Operated and maintained specialized equipment used in wildland and fire situations. Completed emergency equipment repairs as needed to ensure continued use of equipment for emergencies. Attacked fire using aggressive and tactical strategies when equipment was unavailable.

- *Assisted in wildland fire and safety training techniques, practices, and methods of fire suppression, as well as safe and efficient operation and use of tools, equipment, and vehicles for fire-line activities.*
- *Helped with crew member proficiency checks, drills, safety sessions, and fire critiques. Ensured safety of entire crew during fire activities.*
- *Served as experienced firefighter on handcrew or other related fire suppression crews, performing fire suppression or fuels management duties under extremely adverse conditions in climate and terrain with hazardous fuels.*
- *Recommended qualified trainees for Red-X and In Progress Inspections (IPI) special control roster inclusion.*
- *Participated in evaluating training programs and processes.*

**CEDAR CITY IHC:**

Served as a Sawyer for three seasons on Cedar City Hotshots in cutting fire line with chainsaws, mitigating hazardous trees, and using proper personal protective equipment during chainsaw operation. Maintained crew chainsaws and completed technical repairs, Monitored and maintained additional saw parts inventory for squad. Supervised sawyers and trained them in properly and safely operating chainsaws following USFS policies and guidelines.

Effectively suppressed wildland fires applying various strategies and tactics, including direct, parallel, and indirect hand line, over slung and under slung hand line, mopping up, cold trailing, controlled fire-line monitoring, and downhill fire line safety construction by mitigating hazards and using downhill fire-line construction check list. Used portable pumps to create hose lay to extinguish fire and mop up. Trained and mentored other crew members in effective firefighting strategies and tactics.

**CLIENT NAME**

---

Served as crew EMT for the three seasons, instructing crew members on proper use of emergency medical equipment, including low-angle rescues during crew's 80-hour critical training. Instructed students in hands-on class about small motors with emphasis on troubleshooting and repair.

Acted as Senior Firefighter directing small squads of firefighters to complete specialized tasks during 2014 fire season. Directed, constructed, held, and patrolled hand line, evaluating situation to determine rate of spread and workload, while suppressing spot fires and mitigating hazards, such as complex hazard trees. Promoted and ensured safe working environment for squad and communicated with LCES. Assisted with check-in and demobilization processes at ICP. Completed all assigned tasks and prepared activity reports for senior leaders. Observed and communicated fire behavior and regularly updated weather and other updates to crew and other personnel.

- *Maintained peak physical fitness throughout the year and helped organize crew workouts.*
- *Held Cedar City Hotshot's "crew hike" record.*
- *Quickly advanced to Lead Sawyer and Saw Boss, achieving status as FFT1, a firefighter Type 1 squad leader.*

**UNITED STATES FOREST SERVICE**

**ENGINE 361 (TYPE III):**

Conducted daily engine checks and ensured engine in proper working order every day as a critical crew member of a Type 3 engine. Regularly sharpened hand tools, including Pulaski's, Mcclouds, and combi tools, while assisting with daily weather briefings. Suppressed wildland fire using simple hose lays, complex hose lays, and hand lines. Mopped up fires by cold trailing edge of the fire line in initial and extended attack. Acted as look out and called in spot weather forecast to local dispatch. Led efforts to extinguish small fires of less than .10 acre and notified and regularly updated dispatch about fire.

- *Completed two-week fire assignment with local hotshot crew.*
- *Acquired and mastered essential skills, including effectively operating engine, using simple and complex hose lays, and calculating friction loss.*

**SOUTH DAKOTA DEPARTMENT OF WILDFIRE**

Bear Mountain

Rapid City, SD, 57702, United States
